December 14, 2018

Mr. Matthew Marcou  
Associate Director for Public Space Regulation  
District Department of Transportation  
55 M Street SE, Suite 400  
Washington, DC 20003

Re: Proposed regulations for dockless vehicles (E-scooters and E-bikes)

Dear Director Marcou:

At a regularly scheduled and properly noticed meeting<sup>1</sup> on December 13, 2018, our Commission voted 4-2 (with 5 Commissioners required for a quorum) to express our support for the proposed regulations for dockless vehicles (E-scooters and E-bikes) and to request enhancement to aid users of these modes of transit and others including the adding many more racks for parking bicycles across the District.

The thirty (30) day public comment period ended on November 26, 2018, which did not allow us sufficient time to prepare our comments, meet, and submit before deadline. Please accept these comments:

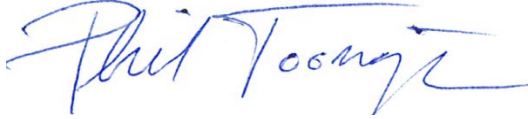

- We are in general support of the regulations, as they will improve public safety with respect to the use of these motorized vehicles.
- In particular, we support the requirement for governors on E-scooters restricting the speed to 10 mph until such time as E-scooter operation can be effectively eliminated from sidewalks and other pedestrian walkways.
- Cash payment devices should be designed in such a way that they cannot easily be vandalized.
- We encourage an increase to the minimum number of units per Ward to encourage a wide distribution of dockless vehicles.
- Finally, we strongly urge DDOT to provide a substantial increase in bicycle parking across the District to included here in ANC6A to help accommodate users of these new dockless e-scooters and e-bikes as well as traditional cyclists as these modes of transit are becoming increasingly popular and DDOT should make efforts to provide needed infrastructure to help accommodate these modes of transit.
