Re: BZA Case No. 19265 (1018 9th Street NE)

Dear Mr. Moy,

At a regularly scheduled and properly noticed meeting on May 12, 2016,¹ our Commission voted 8-0 (with 5 Commissioners required for a quorum) to support the Applicant's request for a special exception under §223, not meeting the lot occupancy requirements under § 403.2, and special exceptions from the rooftop structure requirements under § 400.24, the rooftop mechanical equipment requirements under § 411.5, and the penthouse screening requirements under § 411.18, to construct a rear addition to an existing two-story, one-family dwelling in the R-4 District.

The Commission supports granting the requested special exception because the design for the exterior of the addition preserves the character of the block and does not adversely impact the enjoyment of neighboring properties. The applicant's design preserves the roof top architectural elements and maintains the character of the neighborhood. The Commission supports this applicant on the condition that the materials used on the front of the design be extended to all areas on the addition that are visible from the street.

Please be advised that Brad Greenfield and I are authorized to act on behalf of ANC 6A for the purposes of this case. I can be contacted at philanc6a@gmail.com and Mr. Greenfield can be contacted at brad.greenfield@gmail.com.
