Washington, DC 20013

November 2, 2005

Ms. Kimberly Flowers, Director  
Department of Parks and Recreation  
Government of the District of Columbia  
3149 16th Street, NW  
Washington, DC 20010

Ms. Flowers,

Advisory Neighborhood Commission 6A would like to extend an invitation to attend our next monthly meeting on Thursday November 10, and provide an update regarding construction of Lovejoy Park. Our meetings start at 7:00pm and we this at the top of our agenda. We meet at Miner Elementary School, located 601 15th Street, NE.

For over three years, our Commission has worked closely with Councilmember Sharon Ambrose and the Friends of Lovejoy organization to encourage and support the construction of Lovejoy Park. As you know, the designated area currently is as an abandoned asphalt eyesore. The Department of Parks and Recreation has made commitments to Councilmember Ambrose and the community to initiate construction this year. The ANC would appreciate an update on the current timetable for this project.

Please let us know of your availability to attend and provide this information. Since we are in the process of organizing our agenda for the meeting, please also let us know how much time that we should allow for your comments.

Sincerely,

Joseph Fengler, Chair  
Advisory Neighborhood Commission 6A

cc: Councilmember Sharon Ambrose
