#### ***Raise public awareness***

*Create an ANC-sponsored public awareness campaign, working with neighborhood newspapers, community media outlets, and print materials to assist families in understanding what social service, recreational and youth service activities are available in the community. This information should be driven by the findings of the landscape map, and be aimed at “untangling the web” of opportunities available to families in our community.*

*Create a Summer Neighborhood Campaign*

*Established community walks, led by the Public Safety Committee in conjunction with Police Service Area representatives, should focus on environmental contributors to youth crime. Neighbors can identify areas where youth congregate to ensure sufficient lighting, cleanliness and safety precautions are taken in these areas specifically.*
