<td>PENDING</td>
<td>Nov 30 2020 12:41AM dmsukwattan wrote for Applicant - There is an active Washington Gas Service to 424 11th St NE within the proposed project limits, which is not shown on the plans provided and may be impacted by the proposed retaining wall. Please provide a detail of the proposed retaining wall to aid in the evaluation of potential conflicts with existing gas facilities. Washington Gas requires all active Washington Gas facilities within the project limits to be shown on the plans provided. Washington Gas requires 5 feet of horizontal separation and 12 inches of vertical separation from all underground structures. Ensure all active Washington Gas facilities within the project limits are shown on the plans provided and adjust the proposed plans if needed to accommodate 12-inch vertical separation and 5-foot horizontal separation with those facilities. If the proposed construction plans cannot be revised to allow for adequate horizontal and vertical separation with the existing Washington Gas facilities, the customer can contact the Washington Gas Customer Service department (703) 750 1000 and request a 613 order be created to relocate the service.</td>
