The purpose of this Questionnaire is for DDOT to gather information about a safety concern in order to perform a Traffic Safety Assessment (TSA). The intent of the TSA process is to ask residents to identify traffic safety concerns, whether along a roadway segment or at an intersection, and focus on the definition of the safety concern(s) rather than on a proposed solution or mitigation measure. Based on the nature of the request, DDOT will determine the type of assessment necessary to investigate the extent of the traffic safety concern.

Please fill out the information below and answer any questions to the best of your ability. If necessary, please attach additional pages.

Once completed, please submit this form to DDOT via the address provided below, or you can email the form to traffic.safety@dc.gov.
