FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:

**Case No. 04-27 (Text and Map Amendments to Establish and Map the H Street, NE
Neighborhood Commercial Overlay District)**

THIS CASE IS OF INTEREST TO ANCs 6A and 6C

The District of Columbia Office of Planning ("OP") requested that the Zoning Commission establish and map a new Neighborhood Commercial Overlay over commercially zoned properties fronting H Street, NE from 2nd Street, NE to 15th Street, NE. The Office of Planning set down report was filed on October 15, 2004, and the Zoning Commission set down the case for public hearing at its meeting of October 25, 2004. The Office of Planning set down report serves as the pre-hearing statement for this case.

SUMMARY

This overlay is part of the implementation of the REVIVAL: The H Street NE Strategic Development Plan (Strategic Development Plan), which received final approval from the Council of the District of Columbia on February 17, 2004. The overlay seeks to incorporate the District policies for transit-oriented development and further many goals and policies of the Comprehensive Plan.

The proposed overlay is divided into three sections. The first section (Housing Sub-district) of the overlay would correspond to the Urban Living (Western Gateway) portion of the Strategic Development Plan to provide a moderate density and a medium density mixed-use area focusing on residential development with ground floor retail or other commercial uses allowed, but not required. The second section (Retail Sub-district) would correspond to the Central Retail District (Retail Core) portion of the plan to provide a moderate density retail, office and residential use with focus on retail uses. The third section (Arts Sub-district) would correspond to the Arts and Entertainment portion to provide moderate density retail and residential use with focus on arts and entertainment uses. The proposed overlay will provide common design standards like parking in the rear, zero setback from the street, and other pedestrian-friendly design criteria that will encourage transit-oriented development.

(1) Housing Sub-district

The Housing sub-district will provide for moderate and medium density residential development with supporting ground floor retail and service uses. The district will be subdivided into two different densities, a low scale area consistent with the current fabric (C-2-A) and higher-scale building envelope with a large residential component (C-2-B). The purpose of the Housing sub-district is to increase the residential density along a portion of the commercial corridor that will help support the retail core of the corridor. In areas where little of the physical fabric that made the corridor a special place is left, new, higher density residential development will be encouraged. Where the essential fabric remains, rehabilitation or modification of the existing structures to accommodate additional residential units will be encouraged.

(2) Retail Sub-district

The Retail sub-district will provide for low- to medium-density mixed use development with required ground floor retail with residential or office uses on upper levels. The zone would maintain the low scale building envelope of the C-2-A zone and moderate-scale where C-2-B zoning exists. The zone will be mapped on an approximately 1500-foot length of the corridor the maximum practical length for a walkable retail shopping area. This is also the maximum amount of retail area that would be a viable in the H Street, NE market area.

(3) Arts Sub-district

The Arts sub-district will provide for low-density arts, entertainment and destination retail uses. The zone would maintain the low scale building envelope of the C-2-A zone, but provide bonus density for arts and entertainment related uses. In addition to providing cultural services to the community this sub-district will encourage a vibrant nightlife that will enhance the vitality of the corridor.

(4) Design Standards and Guidelines

REVIVAL recommends that design controls be put in place to regulate new development that meet the urban design goals of the plan and provide an urban fabric that will perform well in the market place. The controls proposed are divided into two main categories, standards, which control the form, massing and other elements of the building envelope and guidelines, which control the materials, appearance and aesthetics of the design. These types of controls have proven successful in the revitalization of other commercial corridors. The proposed overlay will be used to implement the design standards and guidelines of the plan.

(5) Special Exception and PUD Provisions

To permit flexibility from the design standards the proposed text establishes special exception relief as long as there are no adverse impacts and the relief is consistent with the intent and purposes of the H Street Overlay. Planned Unit Development (PUD) in the Overlay District should further the goals and purposes of the H Street NE Strategic Development Plan.

Additional height and floor area granted by a PUD shall be used for housing or the preferred uses in the applicable sub-district.

(6) Map Amendments

The lots on the south side of the 200 block, north and south sides of the 300 block and the north side of the 600 block are proposed to be rezoned from C-2-A to C-2-B. These areas have little remaining fabric to preserve and the rezoning will encourage the development of more housing along the corridor.
